

eCommerce Solutions

Keep your eCommerce stores up-to-date and maintain accurate transaction data in your **Sprouted POS** system with **Sprouted + 24SevenCommerce**.

Expand Your Online Presence

With **Sprouted + 24SevenCommerce**, you can connect your brick-and-mortar retail store with any number of eCommerce stores for exponential growth.

Seamlessly Sync Data

Information from your **Sprouted POS** system is automatically synced to your eCommerce store(s), including inventory, customer data, orders and customized product categories.

Automate Your Processes

Sprouted + 24SevenCommerce automatically downloads online orders for processing and populates order details for you without manual intervention.

Pointy
part of **Google**

Expand the reach of your store by automatically uploading your products to your Business Profile on Google Search and Maps with **Sprouted + Pointy From Google**.

Scan your products.

Install **Pointy** and scan your products as you sell them.

Display products on Google.

Your products are automatically added to your **Business Profile** - no data entry needed.

Help shoppers find you.

Shoppers can see what you have to offer when they Google your business or products you sell.
