

# Payment Processing

At Sprouted, we believe credit card processing should be **uncomplicated**.

With **RMSPay for Sprouted POS**, we aim to do things differently by providing simple, flat rate processing and easy-to-understand statements with no hidden fees.

## RMSPay's robust features & functionality include:

With **RMSPay**, you can process any major card brand, including specialty card types.

**RMSPay** complies with EMV standards and offers NFC contactless payment options.

**RMSPay's** standard E2E encryption technology helps to keep your customer card data secure. Also available as a validated P2PE solution.

Secure your card on file process with **RMSPay's** built-in tokenization, which allows you to attach a unique token ID to a customer's credit card.

**RMSPay** makes it easy to mix and match card acceptance devices to create the processing environment that works best for you.

Take full advantage of **RMSPay's** 24x7 support service, staffed with a team that's ready to help on your schedule.
