Inventory Solutions

Every **Sprouted** system comes with powerful tools for managing your inventory. Choose the solution that works best for you based on your store size, inventory management needs, and goals for growth.

Cloud +

Designed for small retailers looking to streamline business operations with turn-key inventory tools.

Features include:

- On-demand inventory viewing & reporting
- Vendor management
- Purchase order creation
- Streamlined receiving & file import tools
- Intuitive real-time reporting

Sprouted Grow

Perfect for retailers looking to elevate inventory management and automate more processes.

Features include:

- Keep prices current with automated price updates on your schedule
- Automatically reorder what you've sold with replenishment ordering
- Easily receive orders into stock
- Import specialty product files
- Add signs & labels to print shelf labels, shelf talkers, compare & save signs and more!

Sprouted Pro

For retailers looking to get granular with full inventory control and next level ordering processes.

Features include:

- Everything in **Sprouted Grow, plus...**
- Maintain precise inventory counts
- Automated shelf labels
- Min/max ordering capabilities
- Intelligent ordering based on vendor minimums
- Perform regular counts with a wireless device for the most accurate data
