

Mobile Solutions

Whether its at the register, in the aisle, curbside, or at the front door. **Sprouted's** full suite of mobile solutions open the door for you to serve any customer, anywhere.

Delivery

Available with **Sprouted Grow** and **Sprouted Pro** systems, **Sprouted Delivery** removes complications from the delivery process.

Features include:

- ✓ Prepare transactions in-store from any till.
- ✓ Pre-process payments with securely saved information or mark for collection.
- ✓ Load transactions onto a PDA & transfer to offline mode.
- ✓ Capture proof of delivery, including signature & photo.
- ✓ Automatically sync information to your POS system upon return to the store.

Curbside

A powerful solution for any business. **Sprouted Curbside** allows retailers to expand their reach and provide a more convenient, yet still comprehensive, checkout experience.

Features include:

- ✓ Integrated bar code scanning
- ✓ Real-time payment processing
- ✓ Electronic signature capture
- ✓ Printed or emailed receipts

Ship

Sprouted's integration with UPS WorldShip allows any retailer to streamline mail order processes from start to finish.

Features Include:

- ✓ Text/email order & tracking information
- ✓ Create and fulfill orders directly from the till.
- ✓ Print labels when you process the transaction or later on in your workflow.
- ✓ Process payments and print receipts at the register.
- ✓ See pending transactions in one simple report, including tracking numbers & delivery status updated by UPS at delivery.
